

## **Anthony Bustillo, FCAS, MAAA**

---

**Manager  
KPMG LLP**

Anthony Bustillo is a Manager in the Advisory Services Practice. He is a Manager in the Property/Casualty Actuarial and Risk Management Services Practice. He focuses on delivering financial risk management analyses as well as casualty actuarial consulting services to insurers, corporations and governmental entities.

Anthony has nearly twenty years experience in the property/casualty insurance industry. Anthony is the primary actuarial consultant for the healthcare/pharmaceutical and medical professional liability sector. He has extensive experience working with the majority of the leading healthcare organizations in the industry. Previously, as Director of Pricing and Reserving of a national medical malpractice insurance company, Mr. Bustillo was responsible for managing the pricing and reserving departments. Mr. Bustillo was also a Regional Actuary in charge of managing a countrywide book of business of various medical malpractice clients including hospitals, integrated delivery systems, group physicians practices, nursing homes, managed care organizations, medical laboratories, blood banks, home health care, dentists, nurses, and miscellaneous health care organizations.

A Fellow of the Casualty Actuarial Society and Member of the American Academy of Actuaries, Anthony is an active member in both of these professional organizations. Anthony received a B.S. in Mathematics from the University of Michigan.

KPMG LLP is one of the leading audit, tax, and advisory firms and has maintained a continual commitment throughout its history of providing leadership, integrity, and quality. The Actuarial practice provides services including loss reserve analysis, loss reserve process review, risk management analysis, pricing, cost allocation, and model building. The actuarial practice often teams with other practices within KPMG to provide more comprehensive services to our clients. Examples of such services include teaming with our tax practice to perform studies related to captive insurance companies, teaming with our forensics practice to provide litigation support for insurance related matters, and teaming with our audit practice on insurance issues relating to SOX and IFRS.
