

## **Brian Gale**

---

**Founder  
SaferMD**

Brian Gale, MD, MBA has experience in implementation and research in Critical Test Result management. He brings experience with quality management and radiology informatics with him to this panel. He has coordinated numerous radiology IT clinical and administrative projects, all involving interfaces between separate IT systems, support teams and stakeholders, both clinical and administrative. Dr. Gale also has extensive experience in quality management of physicians, technologists and health care IT systems. He has also developed and implemented real time tools to manage physician scheduling and incomplete radiology cases. As a facility member at a teaching hospital, he has experience in human resources via his management of staff members, medical and surgical residents, and rotating medical students.

Dr. Gale graduated from SUNY at Buffalo School of Medicine. He completed a residency in Nuclear Medicine at Albert Einstein College of Medicine, Diagnostic Radiology at New York Medical College and a fellowship in Body Imaging at The New York Hospital - Cornell Medical Center, currently known as New York Presbyterian Medical Center. Dr. Gale earned an MBA in Finance at Columbia University Graduate School of Business. He is the SUNY Downstate Department of Radiology Director of Radiology Informatics as well as Director in the Department of Radiology at Kings County Hospital Center.

SaferMD offers services to malpractice carriers and physician practices. It was established to reduce indemnity costs and increase patient safety. SaferMD's services are designed to increase patient safety and thereby lower indemnity costs in order to enable carriers to lower premium costs, and increase profits.
